Re: Reroof Main Building – Phase 1

Dear Jim:

Thanks for your firm's good work on our important roof project. We appreciate the attention you brought to the job and your fine staff that worked well with our roofing engineer and our Facilities Director.

We appreciate your understanding of working in a school environment, where attention to the details of coordinating with school schedules, having workers with excellent personnel records, and maintenance of a clean jobsite are very important to us. You were very helpful in coordinating the staging for our clock-tower contractor, and working with him to make both projects successful.

You kept to your budget and schedule. All worked thanks to your continued involvement and attention. Again...Thanks for a job well done.

Very Truly Yours,

Ronald Axelrod
Owner's Project Manager
