62 Hichborn Street  
Brighton, MA 02135

Dear Jim:

I want to thank you for a job well done on our rectory roof, gutters and downspouts. The roof looks really nice and blends in with the parish center roof. With the new gutters and downspouts, we should not have any more drainage issues. What a difference in the appearance of the dormers with the new siding!

We are pleased also with the work done on the mechanical well of the parish center. That was quite a feat to remove all the equipment, replace the rubber roof and return the equipment. The repairs to the fascia boards and wood siding in that area which had sustained significant water damage over the years look terrific. We appreciate that the work was done without any interruption to our parish activities.

John Henry workers were very professional, completing their jobs in a timely manner. The entire project was finished on time and within budget with minimal disruption to the parish. Surprisingly for staff working during the summer, the noise level was not a major distraction.

Thank you again. We look forward to working with you in the future – not too soon – but when the remaining roofs need replacement.

Sincerely,  
**Sister Mary Anne Doyle, CSJ**  
**Parish Business Manager**
